# Face Shield Assembly Instructions

Step 1

1. Line up your materials as shown in the photo on the first page.
2. Start with the PET sheet.
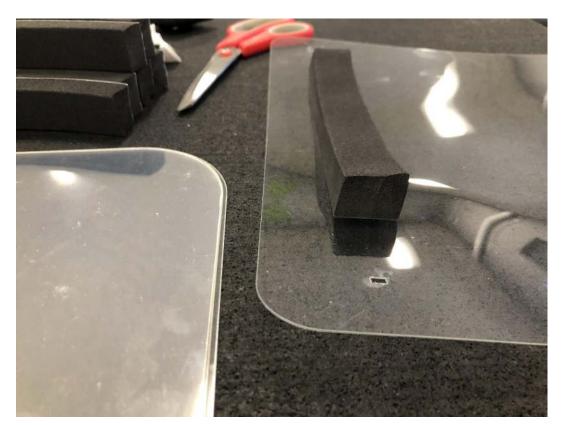

Face Shield Assembly Instructions

Step 2

1. Peel the sticker off a foam pad being careful to not let the sticky side fall on another surface.
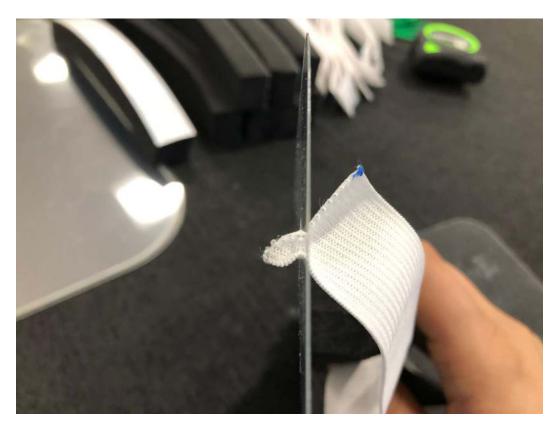

Step 3

1. Align the foam strip centered on the PET sheet, approximately 1" from the top.
2. Apply to the plastic sheet and firmly and evenly press down the foam.

Face Shield Assembly Instructions

Step 4

1. Take an elastic band and insert one of the corners into the left rectangle on the PET sheet.
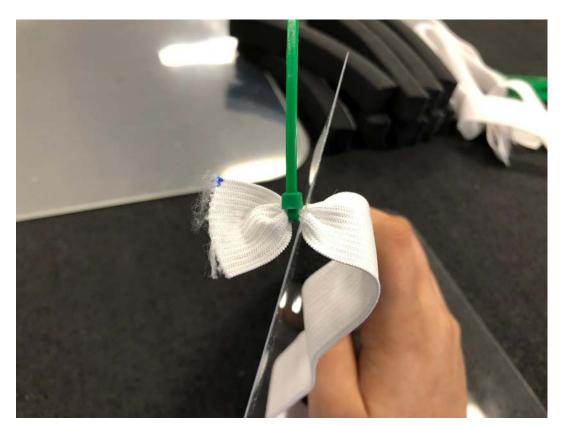

Step 5

1. Pull the elastic band 1" through the rectangle.

Step 6

1. Wrap the zip tie around elastic band against the PET sheet and pull to tighten.

Face Shield Assembly Instructions

Step 7

1. Cut the excess zip tie off with scissors.

Step 8

1. Take the other side of the elastic band and insert one of the corners into the right rectangle on the PET sheet.
2. Pull the elastic band through 2".

This is the adjustable side

Step 9

1. The shield is complete!
